# AIRGLIDE™

AIR-POWERED MATERIAL CUTTER

 **WIZARD**

The Wizard AirGlide™ is a straight-line material cutter, powered by compressed air, that easily cuts the substrates you use most. The AirGlide features a 65" vertical cutting capacity with cutting and clamping mechanisms that are completely air-powered—*no electricity is needed.*

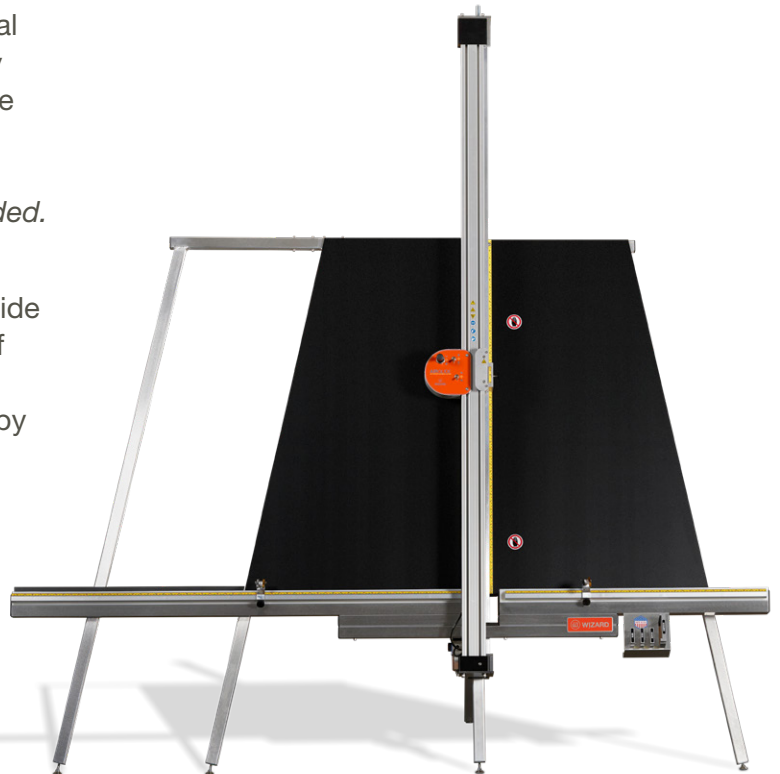

With its two cutting speed settings plus our proprietary quick-change cartridges, the AirGlide is designed to accommodate a wide variety of materials. It provides effortless cutting and consistent quality without the fatigue caused by traditional manual cutters. Just flip the switch and watch it go to work!

AirGlide™ is the ideal companion to any Wizard digital mat cutter and has become a must-have tool for every frame shop.
